## DORT

Complete with Westinghouse  
Electric Starting and Lighting \$665  
Full Cantilever Springs

Full cantilever rear springs make the Dort the easiest riding car in its class.

The Dort cantilever springs are full two inches wide, and extend 50 1/4 inches forward from the rear axle housing, where they are anchored by an ingenious arrangement, which allows them to move freely around the housing case.

They are nearly one-half the length of the entire 150-inch wheel-base of the Dort.

No other car at anywhere near the Dort price affords springs of this length and quality. The proof is in the riding. Let us show you.

## TOLD TRUTH AND FOOLED THEM

Miss Loreta Coleman, a student in Alma high school, who has been living at the home of Mr. and Mrs. Geo. Gargett during the past school year, slipped one over on her friends last Saturday by telling them the truth—that she would be married before Sunday—and had it not been for an accidental discovery of the fact that she was married Mr. and Mrs. Glen C. Lee, would have slipped out of the city without the customary shower of rice and old shoes.

It seems that the young lady told some of her schoolmates that she would be married and straightway there were bets made on the matter, being limited to the treats we are informed. True to her word she quietly wended her way with Glen C. Lee of Saginaw to the St. Johns church, Saturday evening about 6:30, where the knot was tied by Rev. J. Frank Jackson. Near train time a friend of the couple found out about it, and a bunch of school students loaded down with rice went to the depot, and through the fact that the train was late, found the newlyweds, and proceeded to dispose of the rice.

Mr. and Mrs. G. C. Lee left for Stanton, where they spent the week end at the home of Mr. Lee's parents and then proceeded to Saginaw, where they will make their future home.
